

Bogong Rover Chalet Update - March 2006

Bookings

Less than a month to go!

Preferential Bookings and discount rates finish on the 1st April, so get your applications in now!

Early applications help us to identify which Winter Parties cannot be opened due to insufficient numbers. We can't send acceptance letters until there are at least 10 people booked in. We can all help the bookings officer (and maybe save ourselves some money) by getting those applications in as early as possible. It gives us more time to process the applications, pick Party Leaders and Nobs, run briefings and give the catering officer a better idea of how many people need to be fed!!!

Download your application form at www.bogongroverchalet.org.au

Tow Hut Rebuild

The Tow Hut rebuild has been in what you could probably call a planning phase for two years however it is now time for some action on the ground. The Labour Day weekend will see the installation of most of the cabling down the tow line by Stu Bailey (BCMG Chairperson) and Bill Waters Rover Crew. Many other weekends are being planned to build the hut, install the motor, clad the hut and wire up everything. So it's not surprising then that we are looking for some skilled tradesmen and labourers. In particular, if you know of a Rover (or a more geriatric Rover..) that is a Chippy and would be able to spend some time in the fresh mountain air in late March or early April then I'd like to hear about them. When dates have been finalised for the Tow Hut working bees I'll also be trying to recruit grunts as well. The building process will be concentrated only on a few weekends and needless to say there is a lot to do.

Regards

Bogong Bulletin

The next edition of the Bogong Bulletin will be out soon. Any body who has anything they would like to put an article in the Bulletin please send me a copy via email. We would all love to hear about the ski trips to Japan, Spain, France and Switzerland (or anywhere else for that matter) to get us in the mood for Winter 2006
